

# A

## A-Frame Roll Cage รถเข็นแบบ เอ เฟรม โรล

- Nests when not in use. The base folds up and the sides fold in on the back frame.
- Locking legs secure the framework in place leaving the base frame free to nest into another unit.
- Highly versatile – use from factory to warehouse to retail floor and return empty to factory again.
- Bright zinc electroplating finish.
- Security unit features lockable front mesh panel.
- Capacity: 500kg

\* All sizes, features and options available on request.

# Z
